Supervision

- Post Release
Services &
Accountability

Client Screening and Assessment

services quickly allows staff to determine an inmate's risks and needs in order to enhance transition planning and reentry services while in jail and upon release.

Client Transition Plan

is a time sensitive plan of action created by reentry program staff identifying resources which will be utilized to meet the client's reentry needs.

Implement Target Interventions

which begin in jail and continue as the client is released into the community.

The Department operates two reentry programs. The **Faith Works! Reentry Program** is a faith-based program located at the Training and Treatment Center. The **Responsible Transition Program** is located at the Metro West Detention Center. Both programs provide comprehensive reentry assistance in the form of jail based education, community "in-reach" programs and case management. Post release needs are planned for in advance and accomplished through referrals to community based organizations and agencies.
